Staff Well being discussion

The EHT has been reviewing working practices to promote staff well being. Currently staff are working under a lot of pressure and the Federation is losing very good staff members. The pressure teachers are under is within the profession generally. The Stress Management Policy is due for review July 2018.

The EHT is currently reviewing teacher workload, data management systems and marking & planning. Marking has been shown to have very little impact on children outcomes whereas quality feedback will make an impact on progress.

The EHT and HOS's will meet next week to review the expectations on teachers. The EHT plans to have a series of meetings over 4-5 weeks with the staff to communicate any changes to the marking and planning policy.

The Chair commented that parents need to be kept informed of changes and taken on the journey with the staff.

The Chair commented that the GB is responsible for ensuring the well being of the staff and staff need to be aware that the GB is sympathetic to their challenges. Governors need to be more visible within the schools, maybe include a board with photos of governors at each school.

ACTION: The Clerk to add Staff Well Being to the Strategic Board agenda on 24th April 2018. ACTION AJ
